# About Quality Cartridge

At Quality Cartridge, we are a devoted manufacturer of Custom, Obsolete, and Wildcat cartridge cases. We were founded in the early 1990's, catering to the shooter wanting Obscure, Obsolete, Wildcat, Specialty, or Custom loaded ammo, brass and loading supplies. We currently manufacture cartridge cases for many different calibers, and are willing to "tool-up" for almost any caliber a customer may want.

In 2000, after years of development, we introduced our first run of properly headstamped cases.

Using our proprietary process, we have expanded our offering from that single caliber to over 450 different calibers that are offered today. We provide properly headstamped case for some of the more common wildcat and obsolete calibers. We also have the ability to supply custom cases for nearly any wildcat cartridge you can think of. Many of our offerings are newly developed cartridges.

Another product we offer is Centerfire conversion for the Remington 591 & 592 (5mm Rem. Mag. RF to 5mm CF Mag (centerfire)). The conversion replaces the bolt head and retains ALL original parts so collector value is not lost. This allows the shooter to remove the rifle from its "wall hanger" status and get it back on the firing line or in the field. We also provide empty brass cases for the 5mm CF Mag. Reloading dies are available from RCBS. In 2008 the RF ammo was re-introduced, however there is only one bullet available, and no way to tune the loads to your rifle. Our conversion retains this ability and allows the shooter to load a number of good bullets.

In addition to manufacturing cartridge cases, we manufacture several accessories. One such accessory is a scope mount for the M1 Garand Rifle. This mount is similar to the original M1C mount, but with several improvements in design and manufacture. It does require drilling and tapping the receiver (we don't recommend doing this to any low-number or collectable rifles), but provides the most solid mount of any current after-market mount available. Fully detailed instructions are included.

In addition, we offer discounts for members of the following Pro-Gun organizations: National Rifle Association, North American Hunting Club, Jews for the Preservation of Firearms Ownership, Gun Owners of America, and Law Enforcement Alliance of America.

Between 2008 and 2010 times had been turbulent. We were struggling with the boom in the ammunition and brass market. This led to the unfortunate discontinuation of ALL loaded ammo. The demand for empty brass cases had been so great that we were unable to deliver loaded ammo within a reasonable time-frame. After much deliberation and personal struggle in April of 2010 all loaded ammo production ceased.

11.15x58R Werndle M-77	20	--	\$91.97
12.17x44mm Remington	20	--	\$69.97

## NOTES:

(3) Due to known variations among guns in this caliber, a FIRED CASE from your gun is REQUIRED in order for us to make cases for this caliber. If you need a couple fire-forming samples in order to obtain a fired case, we can supply them in a 3-pack for \$95.00 plus shipping.

(4) For this caliber we request a fired case from your gun. We can supply cases ammo made to what we consider STANDARD dimensions, however they will be non-returnable, non-refundable. If you need a couple fire-forming samples in order to obtain a fired case, we can supply them in a 3-pack for \$95.00 plus shipping.

(5) This case is supplied in "basic" (unformed, cylindrical) since the dimensions of this caliber vary widely.

(6) Please call , e-mail, or check our website [www.qual-cart.com](http://www.qual-cart.com) for availability.

# Chamber Flag

(Empty Chamber Indicator)

Many ranges, both public and private, are now requiring the use of a device to give an indication that your firearm's chamber is empty, especially before calling the line "safe". After searching long and hard for an appropriate Empty Chamber Indicator, we found none available at any local shops and few available on-line.

This led us to work with a custom molder to make one for us. The result is our new Chamber Flag. We offer versions for both Center-Fire and Rim-Fire firearms. Standard color is Safety Yellow, however on custom-order we can offer them in Orange as well (please ask for a quote). In addition we can provide them "private labelled" with your company or club logo (please ask for a quote).

Description	Part No.	Price
Chamber Flag, Center-Fire, 6-pack	CFCF06	\$10.97
Chamber Flag, Center-Fire, 12-pack	CFCF12	\$17.97
Chamber Flag, Rim-Fire, 6-pack	CFRF06	\$8.97
Chamber Flag, Rim-Fire, 12-pack	CFRF12	\$15.97

## Promotional Items

We now offer promotional items such as t-shirts, mugs, hats, cozies, and lapel pins.

- |   |  |

# Dealer Locator

To find your nearest dealer, please visit the “Where to Buy” section on our website ([www.qual-cart.com](http://www.qual-cart.com)). This page is organized by state and city. This is designed to assist you in finding a local dealer you carries our products.

We at Quality Cartridge believe strongly in supporting our dealer network thru a strong distributor network. It is our goal to build and maintain strong dealer and distributor networks to provide the best service to you, the customer.

Your local dealer works hard to build relationships with their customers, and they know how best to serve your needs. We are here to help our customer through our dealer and distributor network by providing top-notch brass cartridge cases in the widest variety of obsolete, obscure, wildcat, and specialty calibers available anywhere.

www.ammoone.com

## **Mountaineer Collector Cartridge**

Attn: Doug Binau  
P.O. Box 4429  
Charleston, WV 25364

# Frequently Asked Questions

1. The caliber I want is not listed on your website, is this caliber available?
  - a. Maybe, Maybe not. All of our production cases are listed in our catalog.
  - b. Go to the “Home” page of our website and download a copy. Click where it says “Download a copy of our catalog here”.
2. Can I get cases with a custom headstamp?
  - a. Yes
3. What does it cost for custom head-stamped cases?
  - a. The cost depends on a number of things
    - i. Is the cartridge a common wildcat or obsolete design?
    - ii. Is the cartridge your own design?
    - iii. Will you want the cases to be proprietary (sold only to you)?
4. Are there any minimums for custom head-stamped cases?
  - a. We make every attempt to keep the minimums as low as possible
  - b. Usually minimums run from 600pcs to several thousand depending on the cartridge design.
  - c. The things that can affect the minimum are the same as those affecting the cost (see above)
  - d. In addition, the “parent” case will affect the minimums. If we already purchase materials to make the “parent”, then the minimums will be on the lower end. If we have to purchase material special for your design, the minimums can easily be in the tens of thousands.
5. What are some of the “parent” cartridges you purchase materials for?
  - a. A few of the “parent” cases we purchase and usually stock material for are:
    - i. .30-06 / .308
    - ii. .30-30
    - iii. .223
    - iv. Belted Mag (H&H)
    - v. Weatherby Mag (.378 / .460)
    - vi. .45-70 / .45-90 / etc.
    - vii. Remington Ultra Mag
    - viii. .404 Jeffery
    - ix. .500 Jeffery
    - x. .416 Rigby
    - xi. .357 Mag
  - b. This is a partial list. We do stock many others, so please ask or send us a print of your cartridge and we can let you know how we can help you.
6. Are there tooling or engineering charges for custom head-stamps?
  - a. We try to keep tooling and/or engineering charges to a minimum.
  - b. Whether there will be any tooling or engineering charges depend mainly on:
    - i. Is the case a proprietary design (sold only to you).
    - ii. Can we sell the cases industry wide (sell to any one).
      1. It is at the sole discretion of Quality Cartridge to determine whether or not there is a sufficiently large market.
  - c. If you desire more than one unique headstamp per caliber, there will be a separate engineering charge for each different headstamp.
7. If I purchase custom headstamped cases, do I own the tooling?
  - a. No, the Engineering & Setup charge is for the design of the headstamp only and does not constitute any ownership of the physical tooling.
  - b. All tooling is the exclusive property of, and to be maintained by, Quality Cartridge
  - c. Engineering & Setup charge is a one-time expense for that caliber/headstamp.
  - d. Quality Cartridge will maintain the tooling and cover any costs associated with normal maintenance or repair of the tooling over the lifetime of the project.

## Frequently Asked Questions

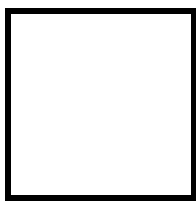

8. Once I purchase headstamp tooling, what happens to the tooling if I discontinue the caliber/headstamp?
  - a. When you determine you won't need any more of this caliber and no longer wish to order any, please notify Quality Cartridge in writing.
  - b. At this point, we will remove the tooling from inventory and grind the headstamp off so it can't be used again.
9. I recently purchased some of your cases and previous purchases were in boxes, now they are in bags. Why?
  - a. In an effort to provide the highest quality product, we determined that the heat-sealed bags, with a desiccant pack keep the cases from tarnishing for a longer time.
  - b. This ensures the cases look as good after sitting on a dealer's shelf for months as they look the day they are packaged by us.
10. I prefer to have the cases packed in boxes. Can I get the cases packed in boxes instead of the bags?
  - a. While this is not a normal thing for us, we are willing to do this, however the following conditions must be met:
    - i. Minimum to re-pack cases is 20 packs (boxes) per caliber.
    - ii. Additional cost PER BOX as follows:
      1. \$6.00 PER BOX for cardboard/Styrofoam box (up to .338 Win Mag)
      2. \$10.00 PER BOX for plastic Frankfort Arsenal box (up to Ultra Mag / .404 Jeffery)
      3. \$15.00 PER BOX for plastic J&J box (.416 Rigby and up)
    - iii. Additional lead time of 4 weeks will be needed to get boxes.
  - b. Why is the additional cost for the boxes so high?
    - i. Since we don't stock any boxes, they must be special-ordered.
    - ii. All brass is already packaged, so it must be un-packed and re-packed in the boxes.
11. I noticed that the anneal marks are no longer present on your cases, why?
  - a. Following our process of continual improvement we determined, after reviewing feedback from many customers, that a cleaner-looking case has a better appearance and has a look of quality.
12. What is the typical lead-time for custom head-stamped cases?
  - a. This depends on a number of factors, however in general it usually runs about 30+ weeks.
  - b. This allows us to procure any of the necessary tooling, schedule raw materials, and get your order into the production schedule.
13. Do you offer loaded ammunition?
  - a. No, we no longer offer loaded ammunition in any caliber.
14. I don't reload, so what are my options?
  - a. Give us a call, we can recommend a couple custom-loaders that may be able to help you out.
15. Since you no longer supply loaded ammunition, can you share some of your load data?
  - a. No, for a couple of reasons
  - b. Due to liability we won't share any load data we have developed.
  - c. Much of the data we have developed ourselves, and is proprietary. IF we choose to offer a load book in the future it will be contained there.
  - d. The only info we can share at the current time is a potential source for some published data. ie: we could advise what manual you might find the data in.
16. Can I save money by making a bulk purchase?
  - a. Yes, however it will be manufactured, packaged, and delivered on the next run for that caliber.
  - b. Bulk means just that. Cases will be bulk-packed in the quantity purchased, not in the usual 20 / 50 pcs quantities.
  - c. Minimum for bulk purchase is 1000pcs of the same caliber.
  - d. All bulk orders will be quoted as a special run.

# Retail Terms of Sale

1. ALL Prices and specification subject to change without notice.
2. All orders shipped FOB Hollywood, MD (prices do not include shipping)
3. Terms of payment, unless other arrangements are made, we accept:
  - a. Visa
  - b. MasterCard
  - c. Company / Personal Check
  - d. Money Order
4. Shipping
  - a. We will be happy to any address in the continental USA.
  - b. All shipments are FOB Hollywood, MD (shipping charges added to invoice and paid by purchaser)
5. International Sales
  - a. We DO NOT export directly
  - b. Please see [www.qual-cart.com/exporters](http://www.qual-cart.com/exporters) for our current exporters.
6. Any errors in shipment MUST be reported within 5 days of receipt of shipment.
7. Returns and restocking: No returns will be accepted without a return authorization from Quality Cartridge. Returns MUST be made within 60 days of the date on the invoice and a copy of the invoice must accompany all returns. A 15% restocking fee will be applied when credit is issued.
  - a. NO RETURNS ON CUSTOM HEADSTAMPED CASES (proprietary headstamp, or customer-designed wildcat)
  - b. No returns after 60 days from invoice date.
8. Other services we can offer are:
  - a. Properly headstamped cases in calibers not listed with relatively low minimums.
  - b. Properly headstamped cases in Proprietary calibers, moderate minimums, and low engineering charges
  - c. Wildcat cartridge design and development
  - d. Our forte´ is the short-run, odd-ball cartridges. Once volumes get high enough it will be more cost-effective to go to Remington, Winchester, Etali. However at the introduction stages of new cartridge designs, or re-introduction of older, obsoletes, or low volume wildcats, this is where we can really help out.
9. See the “read me” page on our website ([www.qual-cart.com/readme.htm](http://www.qual-cart.com/readme.htm)) for updates to these terms.
10. Becoming a Quality Cartridge Dealer / Distributor
  - a. Trade
    - i. Submit a current copy of your Business License with your street / shipping address printed on it to receive our Trade Dealer Terms
  - b. Dealer
    - i. Submit a current copy of your FFL to receive our Dealer Terms
  - c. Stocking Dealer
    - i. Submit a current copy of your FFL and a photo of your storefront to receive our Stocking Dealer Terms
  - d. Distributor
    - i. Must be a recognized distributor of shooting related products.
    - ii. Must meet initial, re-order, and annual minimums to maintain Distributor status.
    - iii. See Distributor Terms for additional information.
